

Dev Malhotra

Business Administration undergraduate who has developed an interest in technology through short online courses and a small number of beginner programming exercises. Demonstrates communication and organizational strengths but has limited evidence of the Python, machine learning and technical project depth required for the target AI/ML engineering position.

EDUCATION

2024–2027
CGPA: 7.62/10

Bachelor of Business Administration
Western Commerce College, Thane
Relevant technical exposure: introductory business analytics elective.

2024
Percentage: 78.50%

Higher Secondary (XII)
Maharashtra State Board
Evidence: official result.

2022
Percentage: 86.20%

Secondary (X)
Maharashtra State Board
Evidence: official result.

EXPERIENCE

Jun 2025 – Aug 2025

Business Operations Intern
MarketBridge Services, Thane

- Prepared Excel-based weekly reports and maintained customer records.
- Assisted with basic data entry, report formatting and team coordination.
- Presented weekly operational updates to the supervisor.
- Evidence: internship certificate and supervisor confirmation; work was primarily business operations rather than software or ML.

ACADEMIC COURSEWORK

- Business Analytics
- Statistics for Business
- Basic Python Elective
- Spreadsheet Modeling

TECHNICAL SKILLS

- Basic Python
- Excel
- Basic SQL
- PowerPoint
- Data Entry
- Basic Data Visualization

SOFT SKILLS

- Communication
- Teamwork
- Organization
- Presentation
- Punctuality
- Customer interaction

INTERESTS

Cricket, Music, Business podcasts

3 — BAD MATCH

DEV MALHOTRA — DETAILED PROJECTS, CERTIFICATIONS & EVIDENCE

PROJECTS

Sales Analysis Spreadsheet

Created an Excel workbook summarizing monthly sales and product categories.

Technical stack: Excel.

Evidence: Evidence: workbook includes pivot tables and charts; no machine-learning model or Python implementation.

Beginner Python Calculator

Created a simple command-line calculator as part of an online Python course.

Technical stack: Python.

Evidence: Evidence: course submission demonstrates basic variables, functions and conditional statements only.

CERTIFICATIONS

- Introduction to Python — online certificate, 2025. Evidence: completion certificate; no advanced assessment evidence.
- Excel Fundamentals — online certificate, 2025. Evidence: completion certificate.

ACHIEVEMENTS

- Received internship appreciation for maintaining accurate weekly reports.
- Participated in a college business-presentation competition.

LOCATION & WORK MODE

Thane, Maharashtra, India. Candidate has not provided firm confirmation that commuting to a Mumbai office three days per week is practical.

JD MATCH ASSESSMENT

BAD MATCH: Has some transferable communication and analytical exposure, but the education discipline is not closely related, practical ML evidence is absent, Python is only beginner level, and there is no meaningful ML project, research, Git workflow, API work or ML internship. The hybrid-location requirement is also uncertain. Candidate would require substantial upskilling before being effective in the role.

EVIDENCE SUMMARY

Evidence is available for business internship work and beginner courses, but there is insufficient evidence for the core AI/ML requirements.

DATASET PURPOSE

This resume is intentionally calibrated to a specific quality tier for the same Junior AI/ML Engineer job description. The candidate profile is not merely shorter or longer: the education, skills, experience, projects, evidence quality, and constraint fit are changed so that the four resumes represent clearly different levels of suitability.
